Objective

Looking for a full-time software engineering position.

Education

Loyola Marymount University; Los Angeles CA

May 2021

Bachelor of Science, Computer Science, GPA 3.79

Magna Cum Laude

Dean's List | Achievement Award

Relevant Experience

American Express

Engineer II

July 2023 - Present

Engineer I

September 2021 - July 2023

- Develop and maintain web applications built with JavaScript and React; implementing responsive and reusable UI components, optimizing performance, and ensuring cross-browser compatibility.
- Assist in maintaining and optimizing SQL databases, ensuring data integrity, and supporting database queries and troubleshooting.
- Contribute to code reviews and fully automated testing using Jest and React Testing Library.

LMU Computer Science Department, Los Angeles CA

August 2018 - May 2021

Teaching Assistant

- Worked with students on Computer Science related issues or assignments and assisted professors with grading and tutoring for their classes.

Maxim Integrated, San Jose CA

June 2020 - August 2020

IT Business Intelligence Intern

- Worked with Maxim's Business Intelligence group under the CFO organization on reporting and administrative tasks.
- Used SQL to build Tableau workbooks and Microsoft SharePoint to create webpages for other Maxim teams.
- Developed teamwork and time management skills to effectively communicate and complete projects as effectively and efficiently as possible.
